

HYDROTECH SERVICES

Authorised Dealer Wex Aquatech

Vapi, Gujarat

21 July 2026

**Subject: Confirmation of deployment of TGF
(github.com/Madhvansh/TGF) at a client site**

DCM SIGNED CONFIRMATION

To whom it may concern,

This letter is issued by HydroTech Services, Vapi an authorised dealer of Wex Aquatech to confirm the deployment of the application TGF, developed by Mr. Madhvansh Choksi and hosted at github.com/Madhvansh/TGF, at the premises of our client, DCM Shriram Alkali.

TGF was supplied through HydroTech Services and deployed at the client's plant in June 2026 independently and working with the client from 2025. Since that time it has been in use for the monitoring and analysis of operations across the four cooling towers at the site, and it remains in operation there as of the date of this letter.

We provide this confirmation in our capacity as the supplier of the application to the client, at the request of the developer, for the purpose of documenting the real-world deployment of TGF. To the best of our knowledge, the application has performed dependably in a live plant environment.

Yours faithfully,

For HydroTech Services

Mr. Atul Choksi

Proprietor, HydroTech Services

HydroTech Services, Vapi Authorised Dealer Wex Aquatech
